VS FLOPRO™
VARIABLE-SPEED PUMP

There's no need to sacrifice your pump's power.

The ideal replacement for high energy-consuming single-speed pumps up to 1.5 HP, the 115v/230v dual voltage VS FloPro™ 1.85 is *the only* variable-speed pump on the market that offers the same performance at both voltages.

• 115v/230v Dual Voltage

With the ability to provide the same head pressure and flow rates at both 115v and 230v, the VS FloPro 1.85 eliminates the need for expensive main power rewiring without compromising performance.

• Add iQPUMP01 for Instant Automation

Two auxiliary relays can be used to control other pool equipment, such as booster pumps and salt chlorinators, for easier installation and operation. No need for additional timeclocks!

• Lower Electricity Costs

Save over \$850¹ per year in energy costs! The variable-speed motor allows for dramatic energy savings and quieter operation.

• Our Quietest Variable-Speed Pump

Over 40% quieter² than other Jandy variable-speed pumps, the VS FloPro 1.85 HP features proprietary sound dampening motor technology allowing it to operate with noticeably less noise.
